

Mark scheme for MAST7865 Data Science project module

Name of Student:

Name of Examiner:

Agreed mark:

Module Learning Outcomes for MAST7865:

On successfully completing the module, students will be able to:

- 1) Plan and execute a substantial project in data science, making use of their broad and deeper understanding of both background and more advanced material.
- 2) Present and describe complex analyses and draw appropriate conclusions with clarity and accuracy.
- 3) Apply their deep knowledge of both theoretical and practical aspects of data science to complete an extensive project in a particular area of the subject.
- 4) Interpret results in a sophisticated manner, showing substantial depth of understanding of how data science methods are relevant to the topic.
- 5) Write a coherent report describing deep and extensive work in a defined area of data science with clarity and accuracy.

Has the student met the learning outcomes of the module? Yes / No

If No, which learning outcomes has the student failed to meet?

Criterion	PASS (52, 55, 58)	MERIT (62, 65, 68)	DISTINCTION (72, 75, 78, 82, 85, 95, 100)
DEPTH • How deeply has the topic been addressed? • Quality of scrutiny of the literature	Adequate but unambitious discussion of the topic Adequate but unambitious pursuit of literature	Clear evidence of thought about the project A good study of the literature A good grasp of issues	Clear evidence of thought beyond the original scope of the project Very good, ambitious, inspired, meticulous
QUALITY OF WORK • Appropriateness of choice of techniques • Quality of computer work • Accuracy • Appropriate use of methodology	Generally sound Perhaps occasional errors	Sound and well organised Appropriate and accurate	Exceptionally assiduous, and of very high quality throughout
UNDERSTANDING • Understanding of the relevant theory • Appropriateness of conclusions drawn • Understanding of implications and limitations	Generally sound with modest evidence of thought Some failings in understanding	Thoroughly appropriate Providing evidence of good understanding	Extremely well-argued Evidence of excellent understanding
QUALITY OF WRITING • Clarity of style • Proper referencing to the literature • Suitability of length of the project • Grammar correctness	Generally clear Generally sound Satisfactory referencing	Clear High quality	Excellent in all regards
INITIATIVE/ORIGINALITY (to be assessed by supervisor only)	The project has been produced just through the supervisor's direction.	The project demonstrates that the student has attempted to pursue appropriate ideas or methods outside of the supervisor's direction	The project demonstrates that the student has successfully pursued appropriate ideas or methods outside of the supervisor's direction.
